SUMMARY

Dedicated React Native Developer with over 2 years of practical expertise, adept at translating concepts into polished and high-performance mobile applications. Committed to crafting compelling user experiences by blending creativity with robust technical proficiency.

EDUCATION

Shri Ram Group Of College   MZN,U.P
Master Of Computer Application   **June 2020 -June 2022**
Shri Ram Group Of College   MZN,U.P
Bachelor Of Computer Application   **June 2017 - June 2020**

SKILLS SUMMARY

- **Languages:**   JavaScript, TypeScript
- **Frameworks:**   React Native, React Js, Next Js
- **Tools:**   Android Studio, XCode, Jira, V.S Code, Figma, Git
- **Soft Skills:**   Communication, Problem-Solving, Time Management,Team Collaboration

WORK EXPERIENCE

Junior Mobile App Developer   Sep 2022 - present

Tycho Technologies pvt. ltd , Noida

- Strong understanding of React-Native for mobile App Development (iOS & Android)
- In-depth Understanding of JavaScript , DOM and relevant concept
- Solid Working knowledge of redux, redux toolkit, redux saga, react query and socket.io
- Deployed Imwow App on App Store and Play Store
- Proficient in leveraging XCode and Android Studio for native module integrations and performance optimization
- Responsible to create Technical and other required document. Increased Customer satisfaction by resolving product or service issues.
- Implemented SSL Pinning to enhance the security of the mobile application, ensuring that data transmissions between the app and backend servers are protected against man-in-the-middle attacks.
- Configured ProGuard Rules to obfuscate code and reduce APK size, which improved the security and efficiency of the application by minimizing the risk of reverse engineering.

Intern Software Developer   Oct 2021 - Aug 2022

Ficode software solution, mohali

- Contributed to the development of web applications using React.js and Angular, focusing on building dynamic, responsive, and user-friendly interfaces.
- Assisted in the design and implementation of UI components, improving the overall user experience and visual consistency of the applications
- Worked on state management using hooks and context API, enabling efficient data flow and user interaction within the application.
- Implemented services and directives, enhancing the modularity and maintainability of the application codebase.
